

GRADUATES 2023

Actors Door Studio

Actors
Door
Studio.

We are proud to present the Actors Door Studio's Cinema Graduate Showcase 2023.

This year, we chose to highlight the work of our actors through a cinema showcase.

Guests have the opportunity to see each actor appear in two scenes. Each scene has been especially written to highlight each actor's unique skills in screen performance, their emotional range and their character development. We chose to present scenes written and filmed in popular television and film styles so that the actor's suitability for a given role and their casting types can be easily recognised.

ADS.

THE SHOWCASE

The work presented is the culmination of approximately two years of training, which the students undertook as part of the ADS Drama Course. To graduate with this certification and to be invited to participate in the Final Year Showcase, students must show competence across study units in Acting Technique, Theatre History, Text and Scene Study, Voice and Accents, Movement and Screen Acting. The program also includes studies in Story, Theatre Style, the Business of Acting, Casting and Branding.

OUR GRADUATES

We proudly graduate 16 talented British and International actors - a diverse group in many senses of the term.

We vouch for the 2023 Graduates' dedication to the craft of acting, their professionalism, their love and compassion for the audience, and their drive and ambition to succeed.

TRAINING IN BEAT™

Acting training at ADS involves completion of a comprehensive training program which includes the Meisner Technique and Beck Emotional Access Technique (or BEAT™ for short). BEAT™ has been developed by the studio's Founder and Director, Fay Beck, and is based on key research findings regarding emotion, character and the self, emerging specifically from the fields of neuroscience, neuropsychology and clinical psychotherapeutic practice.

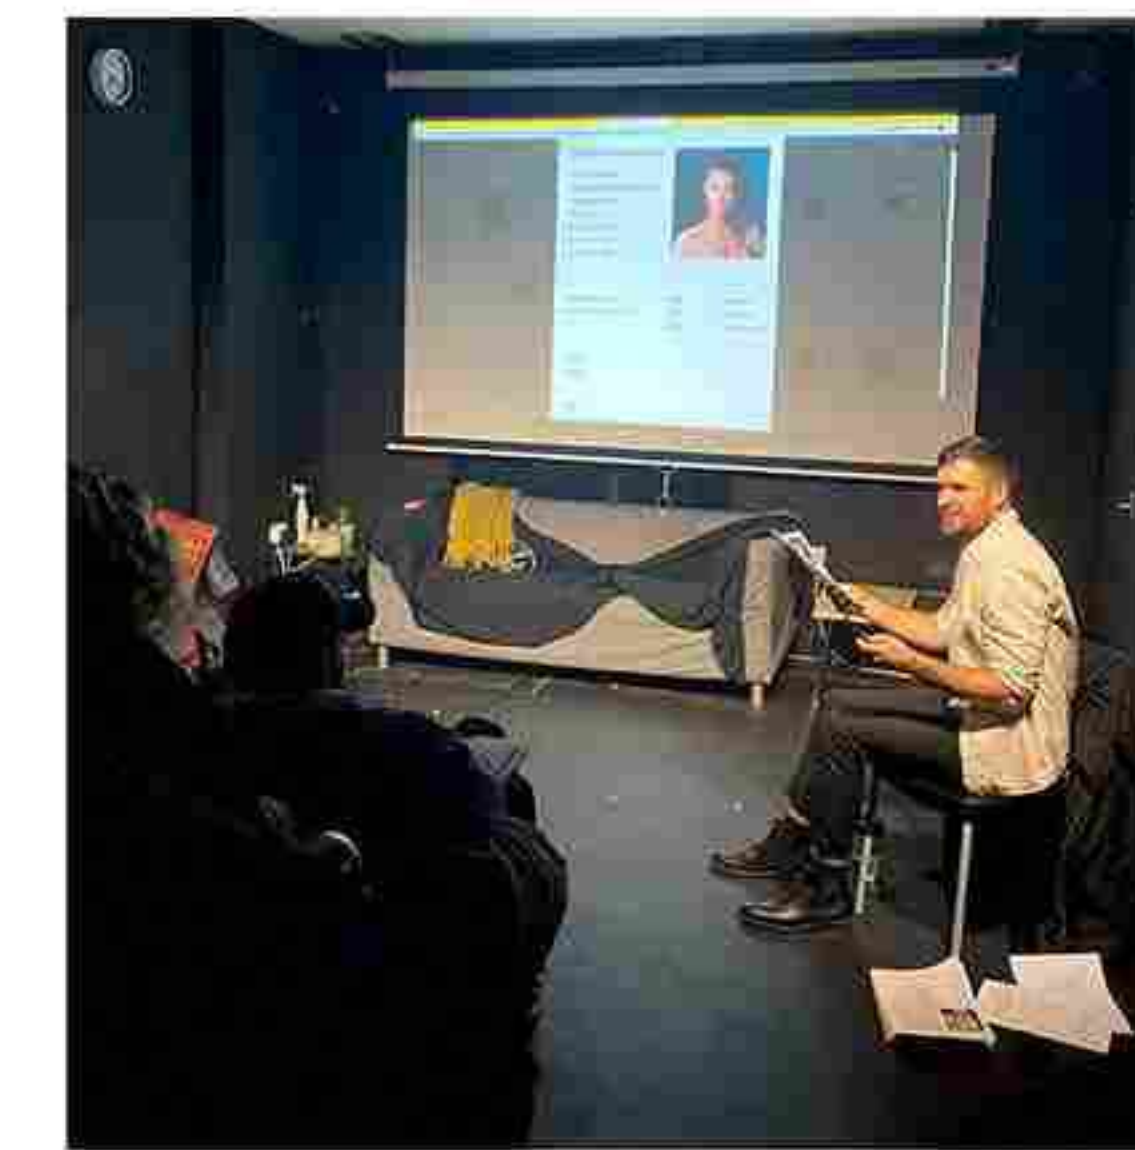

Within BEAT™, the actor is reformulated as a 'resistance free vehicle' through which emotion flows simply, truthfully and effortlessly. Character is understood as a lived, embodied experience. Familiar exercises, such as the famous Meisner Repetition exercise, are redeployed as a tool for self-awareness, mindfulness, and as a method to break down resistances, blockages and inefficiencies.

BEAT™ actors are trained to disengage emotional energy from 'things' (objects, places, people, events) in their own world and to re-apply them to 'things' in the character's world.

SUPPORTING OUR GRADUATES

Our history is young, but we are proud to have worked with and nurtured actors and artists that have gone on to excel in film, TV and stage. Our aim for the future is to continue developing the careers of our graduates and valued students through increasing integration with the industry. We currently support this important work by providing our students with opportunities to grow through involvement in our affiliated film company, Aberrant Gene Films.

OUR STAFF

Our community of tutors and teachers have striven to ensure the training is delivered to the utmost quality and standard. In our team, we include members with unique instruction styles and who come from diverse teaching backgrounds.

We look forward to presenting the outstanding work of our actors and staff to the industry this year.
